Convened by:
Prof. Jayashree Deshpande,
Director, COA-TRC, Pune

Coordinated by:
Prof.(Dr.)Shaila Bantanur,
BMSSA, Bengaluru

PREAMBLE

Cities today are experiencing rapid urbanization, in this context the development debate has focused on the need to achieve a compact city form. In spite of this urban sprawl has been inevitable in many of our cities today. The concept of Transit Oriented Development has proven to be a game changer in combating urban sprawl and achieving a compact city form. This is evident from early examples of cities where this has worked such as Curitiba, Bogota in South America and even Indian examples such as Mumbai and Ahmedabad. TOD promotes ideas of new urbanism such as walk to work and dense mixed-use development along transit corridors. We also understand that TOD is not just about achieving high FSI's but also about Accessibility to Transit Hubs, Vibrant Public Spaces, Mixing Work/ Living and Promoting Non-Motorized Transport Networks. The faculty development program wishes to explore and dissect the concept of TOD from Policy to Implementation and the role Architects/ Academicians need to play to realize TOD.

IN TRANSIT : AN INTEGRATED DESIGN APPROACH FOR TRANSPORT CORRIDORS

Registration Process :-

Colleges who have registered with Council of Architecture under the Collaborative Training Program for the year 2018-19 by payment of training fees in advance, proportionate to their average intake, can nominate teachers to participate in this program.
