We would like to probe deeper into the question of **Learning from Masters** in this workshop. **5 points of Architecture** and **Space is the breath of art** will be discussed. Concepts like **Architecture is a three legged stool**, **"Climate, technology and culture"** will be argued over. Plus **Humble understanding of materials** and concept of **"Eyes on Streets"** will be articulated.

Out of the countless Masters of Modern Architecture, we have selected some architects and their regional context for understanding and interpreting their architectural expression. All the resource persons will elaborate on the design processes from the masters, inspirations from their projects and reflections on the issues of human and social concerns.
