# VERNACULAR ARCHITECTURE & TRADITIONAL CONSTRUCTIONAL PRACTICES IN INDIAN CITIES

**5 Day Online Faculty Development Program**  
**19th to 23rd September 2022 [2:00 pm to 5:00 pm]**  
**Last date to register: 13th September 2022**

## ABOUT WORKSHOP

Vernacular architecture can be defined as a type of local or regional construction, using traditional materials and resources from the area where the building is located. Consequently, this architecture is closely related to its context and is aware of the specific geographic features and cultural aspects of its surroundings, being strongly influenced by them.

The development of vernacular architecture centers on the functions that the building type is required to perform. The design then generally evolves over time, becoming more refined and tailored to the contexts in which it exists. For this reason, they are unique to different places in the world, becoming even a means of reaffirming an identity. Given such unique features, the definition of vernacular architecture may become somewhat unclear.

This FDP intends to address architects perspective and local people adaptations with respect to climate, culture and social needs. Also focusing the key concepts and to understand various regions vernacular practices.

### Convened by

Dr. Navneet Munoth  
Honorary Director  
COA-TRC Bhopal

### Coordinator

Prof. Anand Khatri  
AIT-SAP, Greater Noida

### Coordinator in support

Ar. Smita Rashmi  
AIT-SAP, Greater Noida

### Online Coordinators

Ar. Vaani Dua  
Ar. Gunjan Tyagi  
Ar. Richa Kushwaha  
Faculty at AIT-SAP, Gr Noida
