National Teachers' Training Program (Online)
On
"Knowledge and Employability in Architecture: Future of Architectural Education"
From 5th July - 8th July 2022
Last Date of Registration: 30th June 2022

PREAMBLE

- The program will focus on National Educational Policy, Accreditation, Outcome Based Education (OBE), Faculty Work Authentication (Copyright).
- National Education Policy 2020 focuses on sensitizing teachers for the holistic development of each student in academic and non academic spheres by helping each one of them to recognize and foster their own unique capabilities.
- Adopting various innovative teaching - learning modules will help the institute to get better accreditation.
- Outcome based education is necessary to bridge the gap between classroom learning and practical application.
- This program also talks about different skills to improve employability of students in architecture.
- Procedure of authentication of academic study material like different ideas, concept, methods and technologies is included in the program.
