

# Council of Architecture

In collaboration with

## Smt. Manoramabai Mundle College of Architecture, Nagpur

### Online Training Program

## ARCHITECTURE AND BUILDING SERVICES

7<sup>th</sup> Oct 2024 to 11<sup>th</sup> Oct 2024

10:30 am to 01:45 pm

EopT is scheduled on Friday 11<sup>th</sup> Oct 2024 from 2:00pm – 3:00 pm

Building Services play a fundamental role in built environment by making them comfortable, functional, efficient and safe. These include modern resource management techniques in addition to basic services like plumbing, drainage, electrical, mechanical services and fire safety. These elements are essential to modern building design. For architecture students, this integration of building services must occur throughout the design phase of the curriculum. The FDP aims to comprehend, analyse, and appraise the Building Services academic curriculum module in light of the architecture profession. Participants will have a platform to better comprehend the services and enhance the expertise of all faculty members.

### Experts
